

→ PORT INFORMATION

THE PORT OF TOWNSVILLE IS QUEENSLAND'S THIRD LARGEST COMMERCIAL PORT AND PLAYS A VITAL ROLE IN THE REGIONAL ECONOMY - PROVIDING ALL OF NORTH QUEENSLAND WITH A WORLD-CLASS GATEWAY FOR COMMERCE AND TRADE.

APPROXIMATELY TEN MILLION TONNES OF CARGO PASS OVER ITS WHARVES EVERY YEAR.

THE PORT OF TOWNSVILLE IS ONE OF THE WORLD'S LEADING EXPORTERS OF BASE METALS BY VARIETY AND AUSTRALIA'S LARGEST EXPORTER OF RAW SUGAR AND MOLASSES.

PORT of TOWNSVILLE

Nexus North Queensland

→ Bolstering the local economy

The Port of Townsville moves more than \$3.5 billion worth of exports each year, which amounts to approximately 12 per cent of Queensland's export cargo by value. Townsville Port Authority generates almost \$30 million of revenue annually and represents more than ten per cent of north Queensland's gross regional product. Port activity and industries utilising the port are responsible for over 8,000 regional jobs.

Every day in north Queensland the general population benefits from the Port of Townsville. Cars, fuel, food, cement, bitumen and much more is handled through the port. Behind the scenes, the Port of Townsville also plays an important role in supporting the tourism industry including hosting over 5,000 cruise passengers and navy personnel each year as well as providing essential services and infrastructure to tourism operators.

→ About Townsville Port Authority

Townsville Port Authority manages the Port of Townsville — a breakwater harbour with nine operational berths — and has a land and sea jurisdiction in excess of 400 square kilometres.

Townsville Port Authority directly employs approximately 75 personnel across a broad spectrum of fields including engineering design and supervision, corporate governance, planning and environment, finance, port services, business development, marketing, and maintenance.

Townsville Port Authority facilitates trade through the port by managing and operating port facilities and services, and ensuring appropriate levels of safety and security. The Authority also provides safe navigation within the harbour by carrying out regular dredging and reclamation works, and providing port services.

Our four key areas within which we work are: industry, trade, community and the environment.

IN THE 1800'S, THE CITY OF TOWNSVILLE WAS BORN OUT OF THE REGION'S PASTORAL INDUSTRIES' NEED TO HAVE CLOSE AND OBSTACLE FREE ACCESS TO A HARBOUR. PIONEERS ROBERT TOWNS AND JOHN MELTON BLACK IDENTIFIED CLEVELAND BAY AS THE IDEAL LOCATION.

SINCE THE PORT OF TOWNSVILLE'S FIRST WHARF WAS CONSTRUCTED IN 1863 IT HAS BEEN LARGELY RESPONSIBLE FOR THE ECONOMIC DEVELOPMENT OF NORTH QUEENSLAND.

The Port of Townsville is situated in the heart of tropical north Queensland, 1,359 kilometres north of Brisbane, Queensland's capital city.

→ Facilities and Services

Facilities and services available include:

- nine operational berths;
- 24-hour security;
- extensive storage facilities including cold storage, container storage, enclosed storage and open storage;
- bulk handling equipment; and
- cranes and extensive mobile cargo handling equipment.

The Port of Townsville's customers play a vital role in the port and the city's industrial sector. Some of these include Xstrata, BHP Billiton, Incitec Pivot, BHP Billiton Yabulu, Queensland Sugar, Origin Energy, Cement Australia, Shell, and many more. For a comprehensive list of our customers please visit our website at www.townsville-port.com.au.

→ Community

The worth of an organisation is reflected in a number of ways, one of which can be measured by its impact on the community. At the Port of Townsville, our philosophy is simple: we understand that the impact of our actions and operations affect our customers, clients, employees, and the broader community. We take our commitment as a corporate citizen seriously and participate in community activities to build relationships with our stakeholders.

Each year the Authority sponsors local charities, local business activities, regional development bureaux, cultural events, trade events, tourism, and mining activities.

Townsville Port Authority aims to ensure clear and open lines of communication are maintained with relevant stakeholders. This is primarily achieved through our bi-monthly external newsletter, postings on our website and other community consultation such as our Port Community Partnerships Program.

→ Environment

Our environmental team oversees the ongoing implementation of our Environmental Management Plan, responds to environmental incidents, and continually monitors dust, noise, water quality, sediment, and lighting. Working with the wider port community, the Authority is committed to

ensuring port activities are carried out in an environmentally-responsible manner, have minimal impact on the environment, and meet all applicable legislation, guidelines and standards. Townsville Port Authority is committed to protecting the environment for a sustainable future.
